

JEGAN BASKAR

ASSOCIATE FULL STACK DEVELOPER

7845009566 • jeganbaskar19@gmail.com • Coimbatore, Tamil Nadu, India

[LinkedIn](#) [Portfolio](#) [GitHub](#)

PROFESSIONAL SUMMARY

Associate Full Stack Developer with hands-on experience across Ruby on Rails, Python, Java/Spring Boot, React.js, and MySQL. Skilled at diagnosing production issues, shipping controller-level fixes, and building internal tooling that improves team velocity. Strong foundation in RESTful API design, relational database optimisation, and agile delivery, with a track record of contributing meaningfully from day one.

WORK EXPERIENCE

Associate Full Stack Developer — Baltimore Health Analytics

Oct 2025 – Present

Coimbatore, Tamil Nadu

- Diagnosed and resolved major production bugs across Ruby on Rails and JavaScript modules, reducing downtime and improving application reliability.
- Implemented controller-level changes and business logic updates in Rails to meet evolving client requirements, pairing them with matching JS validations and dynamic UI behaviour.
- Independently designed and built new application screens end-to-end using JavaScript, HTML5, and CSS3 — fully responsive and delivered without supervision.
- Built internal Python tooling and scripts that introduced new features and streamlined team workflows, improving operational efficiency.
- Integrated RESTful APIs between frontend and backend modules, ensuring reliable data flow, error handling, and consistent performance.

Java Full Stack Developer Intern — Xplore IT Corp

Mar 2025 – Jul 2025

Coimbatore, Tamil Nadu

- Developed and maintained full-stack modules using Java, Spring Boot, React.js, HTML5, CSS3, and JavaScript, improving responsiveness and usability.
- Designed and optimised MySQL schemas and queries, improving data accuracy and reducing query response times.
- Built and integrated RESTful APIs for reliable communication between frontend interfaces and backend services.

PROJECTS

Hotel Room Booking System

Apr 2025

- Full-stack booking application (Java, Spring Boot, React.js, MySQL) covering the complete booking lifecycle.
- Built RESTful APIs for room browsing, booking creation, cancellation, and real-time availability tracking with proper status management.

My Task Manager Application

Jun 2025

- Full-featured task management system (Java, Spring Boot, React.js, MySQL) with complete CRUD functionality.
- Built RESTful APIs for task creation, editing, status updates, and completion tracking with structured data flow.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, Ruby on Rails, HTML5, CSS3, SQL, MongoDB

Frameworks: Spring Boot, React.js, Ruby on Rails

Databases: MySQL, Relational DB Design, Query Optimisation

Tools: Git, GitHub, Postman, REST API Testing, VS Code

Concepts: OOP, RESTful API Design, MVC Architecture, SDLC, Agile/Scrum, Debugging, Web Development

EDUCATION

B.E. — Computer Science and Engineering

Arjun College of Technology, Coimbatore · 2021 – 2025 · GPA 70%

Higher Secondary Certificate (HSC)

AKT Matric Hr. Sec. School, Kallakurichi · 2020 – 2021 · 90%

Secondary School Certificate (SSLC)

AKT Memorial High School, Kallakurichi · 2018 – 2019 · 92%

CERTIFICATIONS

- Fundamentals of Generative AI — Microsoft
- AI Tools Workshop — BE10X
- Build Your Own Generative AI App — NxtWave

Soft Skills

Problem Solving, Communication, Team Collaboration, Adaptability, Time Management, Task Management
